## GRADE 5 ACTIVE PASS

All Grade 5 students residing in the City of Maple Ridge are eligible for the opportunity to experience the positive benefits of leisure and recreation at no charge. Eligible students will have access to age appropriate drop-in services offered through Parks, Recreation & Culture at no cost.

<https://www.mapleridge.ca/1474/Grade-5-Active-Pass>

## **INTERNATIONAL EDUCATION PROGRAM**

School District 42's International Education program welcomes international students from all over the world. We are currently looking to increase the number of host families in Maple Ridge and Pitt Meadows. Some of the basic requirements for hosting an international student are:

- Private bedroom and with window and door
- Three meals per day with snacks
- Total inclusion in family
- English primary language spoken in home
- Transportation to and from  
Vancouver International Airport if necessary

If you are interested and would like more information, please give us a call at 604-466-6555 or follow this link to apply:

<https://inted.sd42.ca/homestay/>

## The facts of lice

### What are lice?

Lice are tiny wingless insects that live on a person's scalp and feed on their blood. About the size of a sesame seed, lice lay eggs called nits, which they glue to hairs, close to the scalp.

Each year, head lice get into the hair of **6 to 12 million kids**, ages 3 to 11.

### Symptoms of head lice

Your child may have head lice if he or she complains of:

- A tickling feeling in the hair, like something is moving
- An itchy scalp
- Sores on the head caused by scratching

### How to check for lice

Carefully part your child's hair with a comb and look for the insect's eggs. Lice eggs, laid in the hair close to the scalp, look like tiny white or yellow ovals and often are mistaken for dandruff flakes.

### How head lice are spread

Head lice are mainly spread by direct head-to-head contact, which can be common among kids during play at school, camp, day care or slumber parties.

### How to treat head lice

- 1. Kill the insects.** Apply an over-the-counter or prescription medication that will kill lice and nits. Follow the instructions on the label. Comb dead and any remaining live lice out of the hair using a fine-toothed nit comb.
- 2. Check the hair** of family members and close contacts, like babysitters and your child's close friends, for head lice. Keep checking family members for two weeks to be sure the lice are gone.
- 3. Clean any items** your child has worn or used in the past 48 hours. Machine wash clothes and bedding in hot water. Also vacuum carpet and furniture.

### How to reduce your child's risk

Encourage your child not to share items that touch the head, like hairbrushes, pillows and hats, and to avoid head-to-head contact while playing with other kids.

### Head lice myths, busted!

- Head lice cannot jump or fly from head to head.
- Kids diagnosed with live head lice at school do not need to be sent home early. They can go home at the end of the day and return to class after treatment has begun.
- Getting head lice is not a sign of dirty hair or poor hygiene.
