

2022/2023

Dear Parent or Guardian:

This year your child’s class will take part in a dental health program at your child’s school. This will be done by Fraser Health public health dental staff as part of a province-wide screening program.

As part of this program, we will look at each child’s teeth. We want to find and help children who have dental problems, which can affect their learning. The information about your child’s dental check will be recorded in your child’s health record at the Health Unit. The information collected is to support client referral and follow up and to evaluate the dental program by Fraser Health and at a provincial level. You can find a copy of the last provincial report by scanning the QR Code below.

If we find any problems with your child’s teeth, we will let you know. However, this quick check should not replace regular check-ups by your family dentist.

We make sure that this information stays private. We collect, use and share this information only as allowed by law – the *BC Freedom of Information and Protection of Privacy Act*.

If you do not wish your child to be screened, please contact us at least one week prior to the screening date at 604-507-5417. If you do not contact us, we will screen your child. If you do not want the school principal to be informed of the screening results please contact us at 604-507-5417. If you choose not to participate in the screening and/or in the sharing of results, this will not affect your child receiving other services or in the quality of care provided.

If you have any questions about this program, or about your child’s dental health, please contact us.

Sincerely,  
Fraser Health Public Health Screener
