This week's Wellness resources:

**HIIT (High-intensity Interval Training):** HIIT is when you alternate between high and low intensity exercise(s) or between high intensity exercise and a short period of rest. For example, a short sprint up a flight of stairs followed by a walk back down is interval training. You can find various HIIT workouts on YouTube of every length and level but one awesome channel with all types of workouts and exercises is SELF. They have lots of different exercise and fitness videos as well as this awesome section that is called "Body Stories" where different people (and some celebrities) talk about their personal body stories.

**Mindful Colouring:** Colouring has been recognized as a form of therapy, and there are endless options when it comes to colouring books these days! Some benefits of colouring are:

1. Your brain can experience relief by entering a meditative state
2. Stress and anxiety levels have the potential to be lowered
3. Negative thoughts are expelled as you take in positivity
4. Focusing on the present helps you achieve mindfulness
5. Unplugging from technology promotes creation over consumption
6. Coloring can be done by anyone, not just artists or creative types
7. It's a hobby that can be taken with you wherever you go
