April 27

- Report Cards Released in MyClass

"I've got a busy day of Zoom meetings to interrupt."

	<p>The Thunder Caf will be open for Q4! Snacks for sale from 1-2pm every day!</p> <p>Hey Art and Tech Students! THSS Eco-Action is hosting an Earth Day Art Contest! Submit a piece of original artwork of any medium, including digital art, and you could win some eco-friendly prizes! Artwork should preferably depict the environment in some form. The deadline is April 22nd, 2021. Submit artwork to thssecoaction@gmail.com or dm to thss_ecoaction on Instagram.</p> 
	<p>Library news:</p> <p>As Quarter 3 wraps up, please remember to return your books to the library! If you have overdue books from a previous quarter (or school year), please bring those back too. We will be sending out bills for missing books at the end of the year.</p>
	<p>May 3: Grad Valedictorian Assembly via Zoom</p>
	<p>Resistance/Strength/Weight Training: This type of training increases muscle strength by making your muscles work against a weight or force, it improves muscular strength and endurance. There are many different forms of resistance training and it can include free weights, weight machines, resistance bands or your own body weight. There is a common misconception that using weights will make you bulk up, resistance training does not make you bulkier, it will make your muscles more defined and will make your muscles look tighter and more sculpted. Weight training may increase your weight slightly, but muscle mass is denser than fat mass and takes up less space so even though your body weight may increase, your body size may shrink. In addition, muscle helps you maintain a healthy metabolism because muscle burns more calories than fat.</p> <p>20 Min Beginner Weight Training for Beginners Workout Strength Training Dumbbell Workouts Women Men:</p> <p>https://www.youtube.com/watch?v=zwBsioR4qCs</p>

Nutrition – SUGAR: Nutrition plays a key role in our overall health and we get most of the nutrients our bodies need from the foods we eat. While it's great to treat ourselves with foods that might not be nutrient dense, it is important to be informed about the amount of sugar we consume. Though it is the main ingredient in the delicious Cadbury Mini Eggs many of us consumed this weekend, processed sugar is something we should eat in moderation: "While sugar is easy to spot in candy, soft drinks and ice cream, it also hides out in foods you might not expect — including peanut butter, pasta sauce and even bologna! Robert Lustig decodes confusing labels and sugar's many aliases to help determine just how much of that sweet carbohydrate makes its way into our diets." Check out this TED Ed video to learn about sugar and the role it plays in our nutrition:

Attention Grade 12 students: If any student has received a scholarship from a post-secondary school or from any other organizations, please send an email to Mrs. Gilbert or Mrs. Sekhon.
Val_gilbert@sd42.ca Inderjit_sekhon@sd42.ca

Attention Grade 12 students: There are 8 \$1, 000 scholarships available to grade 12 students whose parents/grandparents/guardians have spent \$2, 000 with Otter Co-op in the prior fiscal year. Please go on line at www.otterco-op.crs and fill out an application and have it sent to mmcauley@otter-coop.com

Aboriginal Education

KAHOOT TRIVIA NIGHT!! April 28 6:30pm

The Ab Ed Department is hosting a family event for the students and families registered with Aboriginal Education in SD42. There will be 4 Indigenous themed games and **\$GiftCard\$** prizes for 1st, 2nd and 3rd place! Check the teams page or your emails to register.

Ab Ed Leadership-Spring 2021: Volunteer to help prepare and plant Indigenous herbs and foods! These will be used for educational purposes as well as for Medicines and teas. All students are welcome to help out. Reach out to Ms. Stanford in room 1109 or at jennifer_stanford@sd42.ca to sign up.
