### HOW DOES METRO VANCOUVER KEEP YOUR WATER CLEAN AND SAFE?

Even though our water comes from rain and snowmelt, it still needs to be treated to make sure it's clean and safe for drinking.

The Seymour Capilano Filtration Plant treats water from both the Capilano and Seymour reservoirs, while the Coquitlam Water Treatment Plant treats water from the Coquitlam Reservoir.

All our water is treated to the same high standards for drinking water, whether it is used for drinking, cooking and cleaning, watering lawns, or washing cars.

Water is tested at the reservoirs, through the water mains, and again in each municipality to ensure it's clean and safe all the way to your tap.

Our region's tap water is required to meet even stricter regulations than bottled water. It tastes great, is inexpensive, and doesn't contribute to plastic waste in landfills or oceans.

Use a refillable water bottle THSS!!

Library: Please remember to return overdue books. If you'd like to renew something, send Mrs. Fulgueras a message on Teams.

Battle of The Books is coming! If you liked Bookfest in elementary school, you're going to LOVE our district BATTLE! Students across the district will be reading up to five fabulous novels and gathering for fun book club activities on April 20th. Whether you read a few or read them all, you're welcome to join! Pop by the library or message Mrs. Fulgueras to join our Teams page for more info!

**Bursaries for Post-Secondary studies in French as a second language**

Students must be enrolled in a program in French and participate in at least 50% of their courses and related activities in French (placements and training activities in the community). You may connect with your post-secondary school for more information about this bursary.
