ABOUT US

Nestled in the trees, Yennadon is a vibrant school community of approximately 615 students from Kindergarten to grade 7. Students are encouraged to explore their own strengths and passions. We encourage a strong academic program alongside a vibrant social responsibility program.

This past year has been very busy, and it wonderful to see so many of you at our school events, including our welcome back barbeque, our Friday movie nights, and most recently our 2 week hip-hop dance program.

Fundraising is very important to schools and Yennadon is no exception as we host regular events throughout the year for educational enrichment programs benefited by all students. You've been a big part of our school's fabric over the years and with that we have been able to acquire many items: a rock wall in our gymnasium to support physical health and wellbeing. To improve our footprint on sustainability and the environment we have placed three Eco Friendly Refill water bottle stations located throughout the main building and Annex. Several improvements have been made to our auditorium including risers and the restructure of the curtains & projector screen to improve visibility during concerts and assemblies. We look forward to your support in our future endeavors as we continue to meet our school's need to further enhance the unique style of enriched learning.
